HEALTH EXPERT TELLS PARENTS OF HIDDEN ILLS

Many School Kiddies Are
Suffering From Minor
Ails, Says Nurse.

SERIOUS ONES FOUND

Tonsils, Adenoids and Being
Underfed Hinder the
Pupils' Progress.

Revelations which are expected by city school officials to be little less than astounding to parents are being made in physical examinations of school children in the various Ada wards this week, according to a statement today from J. E. Hickman, city superintendent. All doubt that some serious physical conditions exist in Ada's schools were removed yesterday by Mrs. Henderson when she started her examination work at Hays school.

Several bad cases were found during her first day's tests and prospects were that she would find others before completing work here. One case was cited in which a child was found to be suffering from swollen tonsils, overgrown adenoids, a bad throat and other ailments, all of which can be remedied with little expense and of great value to the child, she said. Many children were found to be unable to breathe through their nose.

In her examination of the condition of the children as to their nourishment it was found that on an average the pupils had plenty, but several were found who were below normal. Cases of under feeding were pleasingly few in Hays school so far as the nurse was able to determine on her first day's work.

Parents Responsible
It was explained that in the cases of students who have had affections of mouth, nose and throat that only suggestions as to the proper steps to be taken will be made by those in charge of the health survey. Parents will be required to do nothing to remedy the ailment of their child, but they will be informed of the trouble and the responsibility of a permanent remedy left to them.

That those children who would not be able to pay for treatment and who were desperately in need of it could be given care was assured. When parents take steps to remedy the condition of their children, a record of such effort will be made at the office of the city superintendent, and not only will the school board know how the schools are from a health standpoint, but it will also know what improvement is being made.

Teachers at Hays school, have lent every effort in making Mrs. Henderson's task easy and she reports that rapid progress is being made there. She expected that by tonight she would have completed her work at that building and would be ready for the first examinations at the Willard school tomorrow.

Wednesday Divorce Day in Court Here; Three Cases Entered

Wednesday was divorce day in the Pontotoc county district court. While Cupid slumbered under the spell of approaching springtime, three petitions for dissolution of matrimonial ties were filed in the court clerk's office.

Laura Elam is asking a divorce decree from W. H. Elam, alleging non-support. She asks that the defendant be compelled to contribute towards the support of minor child, during the pendency of the suit.

Martha Poe is seeking separation from Nola B. Poe, charging cruelty, abandonment, and refusal to support. The defendant filed an answer demanding proof of the allegations and waiving summons to trial. Abandonment and lack of support is also alleged in the suit of Inez Turner vs. C. E. Turner. She asks the restoration of her maiden name. Other new cases filed in the district court are C. V. Compton vs. Otto Strickland, judgment; and H. E. Randel vs. James E. Fussell et al, foreclosure of mortgage.

OBREGON TO RELEASE DISCONTENTED SOLDIERS

(By the Associated Press)
MEXICO CITY, Feb. 16.—Generals Gera and all other army officers who are "not satisfied with the present state of affairs and who are therefore not rendering conscientious service to the army," have been informed by President Obregon that their immediate discharge is ready at their request.

OKLAHOMA WEATHER
Tonight and Friday partly cloudy; warmer.

1600 BOYS, 15 YEARS OLD, MARRIED IN U. S. IN 1920; MANY DIVORCED

WASHINGTON, Feb. 16.—Sixteen hundred boys and 14,834 girls, 15 years of age in the United States, were listed as married in 1920, the census bureau announced today in a statement presenting a special analysis of marital statistics. Eighty-two boys and 499 girls of the same age were recorded as widowed or divorced.

The analysis revealed a distinct increase during recent years or since the 1910 census in the number of married persons for each year of age from 15 to 34, especially the younger members of this group.

GREEN IS CHOSEN BASEBALL CHIEF

Local Fans Enthusiastic as
Baseball Bug Opens the
Season Buzzing.

At an enthusiastic meeting of baseball players and fans yesterday afternoon in the office of the American Oil company, it was decided that Ada should have a ball club this year, to be conducted on somewhat the same plan as was used with the club last year. A. O. Green, of the Green Drug company, was elected manager and has accepted the position, according to his statement today.

The office was crowded with players and fans who discussed the situation from every angle. It was found that at present there are about enough good players in the city to form a team, but plans are to be laid for the securing of more good material from out of town. Most of the men who played in the team last year will be back, with several new additions.

The meeting also went on record as standing behind the effort of Coach Thompson to put the Teachers College on the athletic map and agreed to give him support on his baseball team this year. Thompson will have a crew of men working out for the team in a few weeks, many of the men taking up positions on the town team as soon as the season is over.

It is expected that the Ada club will retain the amateur championship won last year. Many good teams are to be booked and fans will be given some real chances to see semi-professional ball.

Mr. Green has had experience managing a baseball club and he is expected to put the team on a good foundation at the outset of the season. Players and men are back of him, and although Ada baseball supporters did not feel able to back a league team, they signified their willingness to have the next best thing, a winning amateur club.

GARRETT TAKES STAND TO GIVE STORY IN CASE

(By the Associated Press)
ARDMORE, Feb. 16.—Buck Garrett, suspended sheriff, went on the stand just before the noon recess today in his defense in the ouster suit against him.

The witness denied the charges and in detail attempted to explain them away.

The defense will rest early this afternoon and the state will introduce some rebuttal testimony, after which arguments will be started, attorney's for both sides said.

Ouster charges against J. H. Langston, mayor of Healdton, will be dismissed as soon as that official notifies Assistant Attorney General Elmer E. Fulton of his resignation. Fulton announced this morning following information that the mayor had resigned.

Pauls Valley boys play Ada boys tonight at Normal gym. Weleeta girls play Ada girls at High School gym tomorrow night. 2-16-1td

"One Can't Stay Alive By Eating Dead," Motto Doctor Used to Reach Ninety Nine Years

(By the Associated Press)
LOS ANGELES, Feb. 16.—The wish of Dr. James Martin Peebles, physician, scientist and author, that he live until March 23, in order to round out 100 years of life, failed to be gratified. He died at his home here yesterday.

Dr. Peebles, who was in the long domestic service in Turkey for a long time, wrote a large number of books, among which was one entitled "How to Live a Century and Grow Old Gracefully."

For the last 60 years of his life he has eaten no meat.

Lived By Books.
Peebles not only wrote a book on "How to Live a Century and Grow Old Gracefully" but made himself an example and demonstrated his theories. When he had passed his 99th birthday anniversary in March 1921, he declared that he intended to live not only to be 100 years old but many years more.

Although lacking only one year of being a centenarian, Dr. Peebles then walked erect, only occasionally

KANSAS WOMAN HEADS 274 DESCENDANTS NOW

SABETHA, Kan., Feb. 16.—Mrs. Bertha Perkins, who will be 98 years old next April found a real thrill recently when three additional great-grand children arrived in three Sabetha homes, within a period of 48 hours. They brought the number of her descendants up to 274.

Mrs. Perkins' five generations of descendants are divided as follows:
10 children, eight of whom are living.
75 grand children.
155 great grand children.
25 great-great grand children.

9 great-great-great grand children.

Mrs. Perkins was born in Virginia, April 25, 1824; married David Perkins in Ohio, March 16, 1843. Her maiden name was Bertha Marcum. In 1848 they emigrated to Iowa, and in 1857 took a homestead in this—Nemaha county—where she has lived ever since. Mr. Perkins died in 1893.

TROOPS QUARTER IN ULSTER HALL

Casualty List in Rioting at
Belfast Reaches 114,
Official Report.

(By the Associated Press)
BELFAST, Feb. 16.—The authorities today took over Ulster Hall, the community structure on Bedford street ordinarily used for concerts and assemblies, for the use of troops now engaged in combatting the disorders here. Up to 10 o'clock this morning the casualties reached a total of 114, with the death list numbering 34.

The day opened with the death of a five year old child, who was struck by a bullet while playing in the street.

Workmen proceeding along Seaford street were shot dead. Youthful gunmen held up workmen in the lower market district and wounded one of them.

Telegraph Set To Give Practice To College Students

Electrically inclined students at the Teachers college now have an opportunity to amuse themselves with a telegraph set, which laboratory students have set up. The line extends from the chemistry room down the hall to the manual training shop. It has been fitted up and several students have sent and received messages.

M. Z. Thompson, head of the laboratory department, stated it was set up to demonstrate to the students how such a set worked. Instruments are open to students who are eager to practice on them and learn the trade.

EAST CENTRAL TO BE TALKED OVER WHOLE DISTRICT

Ada High School To Hold
Program Friday in
Behalf of Move.

PATRONS ARE INVITED

Schools of Ten Counties Set
Aside February 17 As
Annual Day.

Every school of at least high school standing in the East Central district, comprising ten counties, is expected to hold programs Friday observing "East Central Day," which is being instituted as an annual occasion in the interest of stimulating educational activities in this part of the state and especially emphasizing East Central Teachers College as central point in school work for this district.

Speeches will be made in the interest of the school here and information given out to all prospective students and others as to benefits which the school offers. This day has been selected by the East Central Educational Association of which G. S. Dowell, Tecumseh, is executive secretary.

All high school and college patrons of Ada have been invited to attend a special chapel at Ada high school tomorrow morning at 8:30 at which prominent speakers will stress the furtherance of an East Central Educational movement. Music will be rendered by various high school organizations.

"We expect to make this a humming of an educational rally. It is a thing of big importance to all patrons of the high school and East Central and we look for a record attendance." Prof. A. L. Pentem, principal of the local school, stated at noon today.

Reports from all leading schools of the district are that special programs have been arranged and that the state school here will receive more attention on Thursday than it has ever before been given. This is the first event of this nature ever held in this district. Letters of instructions were sent to the principals and superintendents of schools over the district.

Husband Kills 3 When Wife Won't Recall Divorce

LOS ANGELES, Feb. 16.—Three children last night mourned a triple tragedy that took the lives of their parents, Mr. and Mrs. George Boden, and latter's mother, Mrs. Julia Taylor. Boden shot and killed his wife after he had failed to affect a reconciliation following her own life, according to the police.

A sister of Mrs. Boden's, Mrs. Bessie Walters, of Bakersfield, escaped by plunging through a window. The three children, ranging in ages from 8 to 17 years, were in school. In Boden's hand was a note, written in a childish hand, which read:

"I guess I am rather stupid. I can't say pretty things to you, but honest, if you will let me, I will be a good boy to you. —Your Valentine."

Don't forget the meeting of the Retail Merchants association Friday night at 8 o'clock.

NEW DEMOCRATIC COMMITTEE IS CALLED TO MEET HERE ON FEB. 25

NEWLY elected members of the Democratic County Central Committee of Pontotoc county have been called to meet Saturday, Feb. 25, at 2 p. m. in the district court room for the purpose of electing a chairman, vice-chairman and secretary-treasurer. The call was issued Thursday afternoon by F. F. Brydia, chairman, and Harmon Ebey, secretary, of the Democratic County Central Committee.

It is provided in the state democratic constitution that the chairman and vice-chairman may not be of the same sex. This meeting was called some time ago but was postponed because of small-pox quarantine orders.

PRESENCE OF "FLOSSIES" HOLDS ENTIRE SCHOOL

AUSTIN, Texas, Feb. 16.—There are about 200 male and female "flossies" who come to the University of Texas solely for a good time. Dr. Robert E. Vinson, president of the university, declared in an address to the general convention of women students here this week.

And as usual, the actions of these few students hinder appropriations of the legislature he declared.

He urged the women students to get behind the administration and their own officers and organizations and eliminate "this source of trouble by setting high, clean standards and holding to them by means of healthy public opinion."

BONUS DEPENDS UPON SALES TAX

Harding Declares Soldier
Reward Is Impossible
On Another Basis.

(By the Associated Press)

WASHINGTON, Feb. 16.—President Harding informed congress today he considered a general sales tax the only feasible method of raising funds for a soldier bonus.

The executive in a letter addressed to Chairman Fordney of the house ways and means committee said that unless congress adopted the plan for raising the funds by a general sales tax, passage of bonus legislation should be temporarily postponed.

"I believe," the president wrote, "the American people will expect the levy of a general sales tax to meet the proposed soldier bonus payments and we should not thereby bring on additional difficulties to the program of readjustment. If congress will not adopt such a plan, it would be best to let the legislation go over until there is a situation which will justify the large outlay."

War Profit on Hand.

Declaring that the government had under consideration the disposal of surplus war profits and transactions which will bring "great relief" to the treasury, the president said it would be wise to let the legislation go over if congress did not deem it advisable to adopt the sales tax.

The president's letter was regarded generally at the capital as leaving the bonus situation ever more complicated than before. Senate and house subcommittees were to meet later in the day to review and consider the White House communication.

When the sales tax was discussed in the subcommittees last week, it was understood that senators were informed that less than 100 representative votes could be obtained in the house for a general sales tax, a method of finance for the adjustment. Such a tax had been considered by house leaders as a possibility, but virtually had been discarded.

GIANT SWINDLES ARE UNDER FIRE

Foreign Born Citizens Lost
Millions To Trio of
Firms, Charge.

(By the Associated Press)

CHICAGO, Feb. 16.—The police were waiting word from Palm Beach, Fla., today in their search for Leslie Harrington, missing head of one of three concerns said to have defrauded foreign born citizens of millions of dollars. A woman said by the police to be Harrington's wife is being kept under surveillance at Palm Beach. Police authorities think that Harrington is on the way to join her today.

Harrington, who fled Chicago Saturday morning following the exposure of Raymond Bischof's operations which he is said by the police to have been indebted to in the sum of \$4,500,000 has debts amounting to at least that figure, according to federal investigators.

Mrs. Harrington was not told that she was being watched, it was reported here, in the hope that some telegram or letter sent by her to Harrington might be intercepted.

MUSICAL EVENTS TO FEATURE MAY DAY OBSERVANCE

"The greatest home talent musical event ever attempted to be staged in Ada" probably will be given here May Day, according to information released by school authorities today. The musical affair now under consideration will consist of an all day musical program at Glenwood park, where stage would be erected.

Under present plans a children's chorus of 1,000 voices will be a leading feature. A 25-piece orchestra will accompany the chorus and other musical numbers will be furnished by students in music classes at the ward and high schools.

This event will be divided into two sections, the first session being held in the morning and the second in the afternoon. A children's pageant, to be held at night on the same stage, is also being considered. Such a program has been under consideration and it is expected that it can be effected. If it materializes it will be the first of its kind ever held here and in the opinion of the school authorities will be of the greatest features ever attempted by the schools.

PLIERS IS ONLY WRAPON PLUCKY HI-JACKER

SEATTLE, Wash., Feb. 16.—Armed only with a pair of pliers, John Lutley, held up two places of business today, one in broad daylight, the police charged. He thrust the pliers forward pistol fashion, veiling them in a pocket of his mackinaw, and carried off \$300, according to police.

He requested two women clerks in a millinery store to lie face downward in the floor and while police were searching for him, he worked the same ruse in a restaurant.

He was apprehended as he left the restaurant.

JURY PANEL FOR OKMULGEE BANK TRIAL IS READY

Investigators Are Due To
Open 3-Week Scrutiny
February 27.

COURT STANDING IDLE

Attorney General Meets
With State Bankers on
Re-Organizing.

(By the Associated Press)

OKMULGEE, Feb. 16.—A new grand jury panel, from which will be selected 12 men to conduct an investigation into the affairs of the defunct Bank of Commerce here, which was abruptly terminated last Thursday when Superior Judge Christopher dismissed a grand jury called primarily for that purpose because he said it had been illegally impaneled, was drawn here today by the sheriff and district court clerk.

The panel, which is composed of 24 men, is expected to make a "high class" grand jury in the words of County Attorney Hepburn, who added that many of the most "solid citizens" of the county are included in the list of 24.

The panel was ordered to report February 27 to Judge Mark L. Bozarth, of the district court, who will impanel the new jury, at the same time launching an inquiry which will last about three weeks, according to County Attorney Hepburn.

Still no word has been received today from Judge Christopher, who left here last Thursday following a demonstration protesting against the dismissal of the grand jury. Judge Christopher's resignation, which he forwarded here after it had been demanded in resolutions adopted at a citizens' mass meeting, contrary to previous announcements, will not reach the state house at Oklahoma City until Saturday morning.

Delay Presenting Resignation.

Attorney E. J. Dick, chairman of the committee which drafted the resolution, had previously said he would present the resignation this morning to Acting Governor M. E. Trapp, but today he said he had decided not to leave here until after the bar association meets tomorrow night, at which it is expected the association will go on record favoring the immediate appointment of a successor to Judge Christopher, whose resignation was to become effective March 1. It is not thought that the name of the successor will be endorsed by the association, according to the opinion of several of its members.

The regular term of superior court here and at Henryetta have been idle since Monday due to the failure of Judge Christopher to return to the bench. Despite the present contention of court attaches that the term here automatically "died" yesterday, and that at Henryetta "will die" today, Court Clerk William Campbell said that each court would be opened and adjourned each day until another is appointed to fill his place.

Attorney General Short and Assistant Attorney General Zwiek were meeting today with several state bankers, who advised their solicitations in his activities towards formulating a plan for re-organization of the defunct bank.

Mrs. Christopher Ill.
It became known today that Mrs. Christopher with her young son and married daughter, Mrs. Ralph Porter, of this city, arrived here late last night from Coyle.

Mrs. Porter told the Associated Press that Mrs. Christopher was ill in bed, suffering from a severe nervous breakdown, and that she could not be interviewed. Asked if she knew the whereabouts of Judge Christopher, Mrs. Porter said she did not and that when he left Coyle last Monday it was with the apparent intention of returning to Okmulgee.

Christopher Made Will.

Replying to rumors that Judge Christopher had made his will before departing, Mrs. Porter said this was true.

"Father was heart broken and almost crazy over the knowledge that the people of Okmulgee felt towards him as they did and although I do not know his purpose in making the will, he did so before leaving us at Coyle," she said.

A statement from County Attorney Hepburn calling upon Okmulgee to forget the incident of the past week and help make the county "the best place in Oklahoma in which to live" was made today by a local newspaper.

Attention Merchants.
All merchants, members of the Retail Merchants association, are urged to attend the meeting Friday night in the office in the Shaw building. Interesting and important business.

THE JOURNALIST'S CREED.

I believe in the profession of journalism.
I believe that the public journal is a public trust; that all connected with it are, to the full measure of their responsibility, trustees for the public; that acceptance of lesser service than the public service is betrayal of his trust.
I believe that clear thinking and clear statement, accuracy and fairness, are fundamental to good journalism.
I believe that a journalist should write only what he holds in his heart to be true.
I believe that suppression of the news, for any consideration other than the welfare of society, is indefensible.
I believe that no one should write as a journalist what he would not say as a gentleman; that bribery by one's own pocketbook is as much to be avoided as bribery by the pocketbook of another; that individual responsibility may not be escaped by pleading another's instruction or another's dividends.
I believe that advertising, news and editorial columns, should alike serve the best interests of readers; that a single standard of helpful truth and cleanness should prevail for all; that the supreme test of good journalism is the measure of its public service.

I believe that the journalism which succeeds best—and best deserves success—fears God and honors man; is stoutly independent, unmoved by pride of opinion or greed of power, constructive, tolerant but never careless, self-controlled, patient, always respectful of its readers but always unafraid; is quickly indignant at justice; is unswayed by the appeal of privilege or the clamor of the mob; seeks to give every man a chance and, as far as law and honest wage and recognition of human brotherhood can make it so, an equal chance; is profoundly patriotic while sincerely promoting international good will and cementing world-comradship; is a journalism of humanity, of and for today's world.—By Dean Walter Williams.

OLD MEN.

Two old men.
Edison, seventy-five, welding hot irons from his marvelous brain, beating them on the forge of humanity—who knows what next the light of the sparks will reveal on the master's forge? Edison, smiling tolerantly up at a world perched on his shoulders, a world demanding "make it easier, make it even more comfortable for us." Edison, gloriously close to the world he gave so much.

Rockefeller, eighty-three, another picture. Golfing in Florida. Pitifully aloof from the world from which he took so much. Giving shining dimes to eager folks who think they bring them luck. Like an alms seeker asking a little warmth: "I am so alone; give me a tiny place in your hearts."

Symbols:
Edison young because his brain is young; Rockefeller old because his heart is old.

Edison working because there is so much to do and so little time. Fifteen years he sets before the hearth is cold. No hope of gold. But no man is richer and no man has given more.

Rockefeller playing because there is so little for him to do. The vault is building that cannot long be vacant. Gold is his, great hoards of metal riches, but no man is poorer.

Rockefeller giving his millions with the jerk of a pen; Edison giving his millions in tireless days and sleepless nights.

Two old men; two rich men. One giving dimes with one hand and millions with the other. The world mutters thanks. One spreading with both hands a priceless legacy in progress and comfort and happiness. The world places him in the highest place.—Muskogee Phoenix.

COLLEGE ATHLETIS IMPROVING.

Those who recall how the football and baseball teams of the Normal ranked a few years ago are delighted to see the Teachers College regaining lost ground. While the football season was not a success, the basketball season has been, and the college is destined again to take its place with the other colleges in the state in athletic activities.

Those who watched the lads work last night against the Durant college know that the home institution has a team that is on a par with the best. It was unfortunate that two weeks had to be taken out of the best part of the season on account of vaccination, and this one thing explains the three defeats at the hands of Durant and the defeat at the hands of Oklahoma City College. Had it not been for this sickness of almost every member of the squad, the News believes the local five would have won every game played since the Christmas holidays. They are just now recovering from the illness, and the work last night was one hundred percent.

The attendance at the games is improving. The house was about filled last night. We believe as the teams improve the the patronage from the city will be sufficient to support the activities. We are anxious to see East Central again take her place not at the bottom or about the middle but at the top of the column.

UP TO THE SENATE FOR RATIFICATION

The Forum of the Press

Something to Think About.

(Duncan Eagle)
Are you a man who has succeeded because conditions have been kind enough to thrust the success of prosperity upon you?
You are either awake or asleep now. If you are asleep you may wake and you may not. A great many will continue to slumber.
If you are awake you are taking advantage of your every opportunity.
You are not awake if you are a business man who does not realize the value in legitimate advertising.
William J. Wrigley spends \$10,000 a day in advertising. Just think of what a sum \$3,500,000 is at the end of the year. It is something to think about. Figure on how many sticks of gum must be sold to pay this enormous bill. Here is what Mr. Wrigley says:
"Advertising eliminates any boundary lines for business expansion because it brings steady growth. My gum is sold in practically every part of the world, and the package labels are printed in sixteen different languages. Advertising, quality and service did it."

A few years ago, Mr. Wrigley was a tobacco salesman in Oklahoma seeking drop shipments. His head was full of ideas. He put advertising behind his big idea of chewing gum.
A Duncan merchant with his head full of ideas with a knowledge of the value of legitimate advertising, having quality backed by service, is going to expand. If he leaves out advertising, he will either run a one-hoss establishment until the undertaker takes charge or he will sell out to the sheriff.

These Are Some of the Things in Bootleg Liquor.

(Wichita Times)
Rev. Knickerbocker says that it is worse from the moral standpoint for a citizen to buy liquor from a bootlegger than for the bootlegger to sell it, and he backs up the assertion with some good argument.
The Times has recently been discussing the matter from another viewpoint, without any great success, as indicated by the grand jury report. It has been trying to point out the very serious danger to life and health that lies in illicit liquor. Perhaps, if Dr. Knickerbocker will continue to stress the moral viewpoint and the Times to point out the physical and material, some progress will be made.

Dr. E. H. Gloz, chemist in charge of the food and drug division of the state board of health has given out a statement embodying some of the findings of his investigations in hundreds of cases. Here's what he says:
"It is the condition that surrounds the manufacture that introduces the element of danger. The illicit still by its very nature must be clandestine—it hides itself in thickets, fields and barns—the containers consist of old barrels unspeakably filthy and ill smelling after repeated use. The unprotected fermenting mixture attracts animal life—flies, cockroaches, mice, rats and bugs of every description feed upon the material and often drown in it."

"In a recent court case the accused put up the fairly true defense that the material seized by the officers was in fact not mash ready for distillation but swirl prepared for the hogs. Certainly no one could have told the difference."

"The still used to concentrate the alcohol from the mash is mostly by force of circumstances, a grave affair, defying all average precautions taught by experience and practice. The condensing tube or 'worm' is placed directly upon the boiling liquid, and alcohol and aqueous vapor pass together with foam, scum and other parts of the boiling mass to be condensed by cold water."

"The simplest expression of a still seen by the writer consisted of a common boiler covered with a filthy blanket—the alcoholic vapors passing from the boiling liquid were retained in the blanket and wrung out of the same into a bottle. In another instance a torn-up mattress had furnished the necessary cotton for the training of the finished product."

is placed directly upon the boiling liquid, and alcohol and aqueous vapor pass together with foam, scum and other parts of the boiling mass to be condensed by cold water."

"The simplest expression of a still seen by the writer consisted of a common boiler covered with a filthy blanket—the alcoholic vapors passing from the boiling liquid were retained in the blanket and wrung out of the same into a bottle. In another instance a torn-up mattress had furnished the necessary cotton for the training of the finished product."

"The result of the distillation, 'singling' or 'doubling' in bootleg parlance, is therefore a mixture of water and alcohol together with many by-products of 'putrefaction' and a large amount of 'fusel oils' which impart to the stuff its distinctive and repulsive odor."

"The term 'fusel oil' is often used but little understood. Generally speaking, 'fusel oil' is the common name given to a group of higher alcohols formed simultaneously during the process of fermentation with the better known grain alcohol. Technically, 'fusel oils' consist chiefly of propyl, butyric and amyl alcohols. Their corresponding acids are the propionic, butyric and valeric acids, which impart to limburger cheese, rancid butter and goat ranches their distinctive odors."

"Most of these higher alcohols are distinctly toxic. The symptoms they provoke are headache, giddiness, double vision, staggering and unconsciousness. In repeated and frequent doses, they may cause acute nephritis and affect the composition of the blood."

"BOLSHEVIKI" PLAY WILL BE GIVEN BY SOONERS
NORMAN, Feb. 15.—(Special)—Soonerland is due to be swept by a wave of Bolshevism equating that which stirred the Volga basin in Red Russia. The red flag will be unfurled by the Sooner players when the dashing populi "Bolsheviki" is given March 16. This performance will mark the first appearance of the Sooner players and the play to be produced was written by a Sooner.

Miss Mary Ella Perry, member of the fine arts faculty of the university, is the author of "Bolsheviki." This play made its first appearance in Memphis, Tenn., and has played throughout the United States since. Miss Perry has written a number of sketches which are now being played by lyceum and chautauqua courses in the country. The author will direct the play to be given here and also play the leading role.

Certain monkey tribes are extensive egge eaters.

Political Announcements
City of Ada
The News is authorized to announce the following as candidates for the respective offices of the city of Ada, subject to the primary election:

FOR MAYOR—
W. H. FISHER
W. T. MELTON
GARY KITCHENS

Eight Sooner Co-eds Resolve To Launch On Business Career

NORMAN, Feb. 15.—(Special)—The tradition that business and economics are dry subjects for women was given a jolt at the University of Oklahoma Friday when eight women majors in the school of public and private business announced the formation of an honorary commercial fraternity under the local name of Epsilon Pi, petitioning the national order, Gamma Epsilon Pi.
The members of the local are: Helen Draper and Kitty Shanklin, Oklahoma City; Nellma Thompson, Harshorne; Majorie Guymon, Henryetta; Inez Lacey, Anadarko; Katherine Peak, Guthrie; Lucille Lawrence, Houston, Tex., and Willie Chapman, Antlers.

All of these girls intend to enter the business field after graduation and most of them have been active in business life in the past. Miss Draper is the only member of the national fraternity of the eight.

**MELLON NOT NOW
IN BUSINESS OF
PRIVATE NATURE**

WASHINGTON, Feb. 16.—Basing his view on legal advice, Secretary Mellon contends that he had not contravened the law prohibiting the secretary of the treasury from engaging in commerce or business, it was declared today by high administrative officials in commenting upon the attack of the secretary yesterday made by Senator Watson, democrat, Georgia.

The law was called to the attention of Mr. Mellon, officials said,

when he accepted the invitation of Mr. Harding to join the cabinet. A number of legal authorities were consulted, it was declared, who gave it as their opinion that the mere ownership of stock in corporations did not constitute engaging directly or indirectly in "commerce of business."

Before accepting the treasury portfolio, officials said, Mr. Mellon's only actual participation in business was in the directorate of a number of banks and from these he resigned before entering Mr. Harding's cabinet.

Since becoming treasury secretary, Mr. Mellon, officials asserted, has not devoted a moment's time to private business.

**SALES TAX ONLY
BONUS SOLUTION
HARDING THINKS**

(By the Associated Press)
WASHINGTON, Feb. 16.—Enactment of a sales tax as the only possible means of raising money for a soldier bonus was stated to be the object of President Harding by Representative Longworth of Ohio, a republican member of the house ways and means committee, after calling today at the White House. The Ohio representative said he understood such a view would be set forth by the president in his letter to members of the finance committee of congress.

Such an executive view was also reflected by Senator Frelinghuysen, republican, New York, who called at the White House while the president's letter was in the course of preparation.

Medics Hold Meeting.
Mrs. Sam A. McKeel and Mrs. M. M. Webster were hostesses Tuesday evening to members of the Pontotoc County Medical association and their wives in a monthly meeting of the organization.

Considerable interest is being shown by wives of association members and a heavy attendance marked the meeting this week. The association meets in a room donated by R. W. Simpson.

**Street Improvement
Discussed at Board
Meeting of Chamber**

Paving and other forms of street improvement constituted one of the principal topics discussed last night at a meeting of the Chamber of Commerce board of directors. The paving forum committee of the Chamber will meet with the board of directors next Tuesday night to continue discussions on this topic and a definite plan of action is expected to be decided upon at that time.

The establishment of a complete white way from East Central Teachers college to the Santa Fe was up for discussion. A committee was to be appointed today by the committee on committees, consisting of M. F. Manville, William Whitaker, and C. E. Cuning, to investigate the matter. The first and third Tuesdays in each month were fixed as regular meeting times for the board of directors. The next regular meeting will be next Tuesday night.

Another meeting of forum groups of the C. of C. is expected to be announced after the next meeting of directors.

**SENATE COMMITTEE TO
VISIT MUSCLE SHOALS**

WASHINGTON, Feb. 16.—The senate agricultural committee today made a request for authority to visit the Muscle Shoals Power and Nitrate project in connection with the committee's consideration of Henry Ford's offer to lease the properties. The request which provided that the whole committee of 17 make the trip, was referred to the auditing committee because of the expenditure that would be entailed.

An inspection of the government properties by members of the house military committee in connection with Mr. Ford's offer appeared probable today.

**Troops Held Ready
On Mexican Border
For Instant Duty**

(By the Associated Press)
EL PASO, Feb. 16.—Five thousand troops at Ft. Bliss were being held today in readiness for any emergency which might arise along the border. They were mobilized last night when rumors were scattered in Juarez and El Paso that 3,000 men were assembling in the hills of South Juarez and that the Juarez garrison was expected to "turn over."

Juarez military and civilian authorities strongly denied each reports, but admitted they are aware that revolutionists are trying to recruit men in Chihuahua.

**DISASTROUS FIRE AT
HOUSTON FIELD TODAY**

(By the Associated Press)
HOUSTON, Feb. 16.—A disastrous fire started this morning at Ellington Field, government air field, 20 miles from here. Two men were injured, extent undetermined, when their plane crashed into the gymnasium, and the fire started was fanned by a stiff breeze, spreading rapidly.

**FT. DODGE SHOPS ARE
ARE DESTROYED BY FLAMES**

(By the Associated Press)
FT. DODGE, Iowa, Feb. 16.—The Snell Shops building, occupied by eleven firms, including the Postal Telegraph company, was destroyed by fire here today. The loss was estimated at more than \$300,000.

**NEW REDUCTION MADE
OF U. S. MEN IN GERMANY**

(By the Associated Press)
WASHINGTON, Feb. 16.—An immediate further reduction of 203 officers and 3,000 men in American forces in Germany was announced today by the war department. There will be remaining in Germany after this reduction of a total of 169 officers and 2217 men.

**HARDING IS ASKED FOR
MORE DOPE ON TREATY**

(By the Associated Press)
WASHINGTON, Feb. 16.—Adoption by the senate of the resolution of Senator Hitchcock, democrat, Nebraska, asking President Harding for additional information about the four-power treaty was agreed to today after a two hour discussion in the foreign relations committee.

Peru has a coastline of more than 1,400 miles.

Hilton was sentenced to 30 days and \$50, Loyd to 40 days and \$50 and Clow to 30 days and \$50.

**Proposals To Cut
Rates on Coal To
K. C. Not Favored**

(By the Associated Press)
WASHINGTON, Feb. 16.—Proposals to reduce freight rates on coal into Kansas City from Kansas and Oklahoma producing fields, by 23 cents per ton, made by southwestern railroads, were declared unjust today by the interstate commerce commission. The schedules maintained.

The reduction would constitute undue prejudice against St. Joseph and Omaha, the commission said, and furthermore it was declared that the commission now is engaged in a consideration of a general rate reduction and pending that it was held "partial reductions of this kind here should not be encouraged."

**Four Power Treaty
Up Again Thursday
Before the Senate**

(By the Associated Press)
WASHINGTON, Feb. 16.—The four power treaty which was negotiated at the Washington arms conference again assumed today a prominent place in senate affairs, both on the senate floor and before the foreign relations committee. Pending before the senate was the resolution of Senator Hitchcock of Nebraska, ranking democrat on the committee, to ask President Harding to transmit to the senate additional information and documents relating to the treaty's negotiation. Before the senate convened today the foreign relations committee was called to resume consideration of the treaty, which began last Saturday.

The return from Massachusetts of Senator Lodge, chairman and one of the American delegates to the arms conference, was expected to result in definite action on the Hitchcock resolution.

**Conference Games
For Locals Start
At Home Tonight**

Ada high school boys' basketball team will go into its first conference tilt of the year tonight when it meets Pauls Valley in East Central Teachers college gymnasium.

Coach C. R. Cox's locals have had considerable experience this season, both in city cage league and in playing independent and non-league teams. It is composed of a squad of football veterans who are able to play an aggressive game in the face of any odds, and local fans are looking to the local high to ring up a victory in the season's opener.

Tomorrow night, Ada high school girls meet Weleetka in the high school gymnasium.

Maybe we've gone so far in getting back to normalcy we've passed it.

On account of illness Miss Ruby West will be unable to attend the installation of the Pi Kappa Sigma sorority. She is improving slowly but owing to a relapse it is uncertain when she will be able to be out again.

Glenwood Club Meets.
The Mothers Club of Glenwood school will meet tomorrow afternoon at 3 o'clock instead of at 2:30 as usual, at the building. Mrs. Henderson, the nurse who is examining school children, is eager to meet all Glenwood mothers.

Miss Edna Conway and Mrs. L. M. Leonard who were here to install Upsilon chapter of Sigma Sigma Sigma in East Central Teachers College left Tuesday to assist in the induction of chapters at Northwestern Teachers College at Alva, and Warrensburg, Mo., and Pittsburg, Kansas.

Hays Mothers Meet.
The Hays School Mothers Club will meet Friday afternoon at 2 o'clock at the building. A program will be given by the children and Mrs. Lucy Henderson, health expert, will speak. All mothers are especially requested to be present.

MRS. J. A. RIDDLE, Sec'y.
Mrs. J. A. RIDDLE, Sec'y.

J. E. D. Chambers, a farmer and cattleman of west Texas, is in the city visiting his sister, Mrs. S. A. Welborn at 210 East Thirteenth street and his niece and nephew, Mrs. Tom Hope and J. M. Welborn. Mr. Chambers is an enthusiastic booster for the plains regions of west Texas and says things are prosperous in his section. He lives east of Amarillo just below the caprock.

Sorority Gives Tea.
Members of the Sigma Sigma Sorority of East Central Teachers college entertained informally with a tea in the reception room of the college Monday afternoon. Honor guests were Mrs. L. M. Leonard of Columbia, Ohio, and Miss Edna Conway, of New Mexico, who installed Upsilon chapter of the national sorority here.

The sorority colors of purple and white predominated. Invited guests included members of the faculty, mothers of Sigma Sigma Sigma, and members of Pi Kappa Sigma.

COMB SAGE TEA
INTO GRAY HAIRDarkens Beautifully and Restores
Its Natural Color and
Lustre at Once.

Common garden sage, brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though is troublesome. An easier way to get the ready-to-use preparation, improved by the addition of other ingredients, a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss. While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant, and you appear years younger. (adv)

MOUNTAIN TROUT
TOO YOUNG FOR
STATE ANGLERS

(By the Associated Press)

OKLAHOMA CITY, Feb. 16.—Oklahoma fishermen who have hope of whipping flies over the streams of the eastern part of the state this year are not to realize their dream according to P. H. Nolan, assistant state game and fish warden. Mr. Nolan said that a consignment of mountain trout placed two years ago in streams in the Kiamichi mountains in the southeastern part of the state will not be taken from the water.

However, ambitious anglers may well employ spare time practicing the art of fly manipulation in their back yards, for by next spring thousands of the trout will have passed the 8-inch limit and will be legitimate prey for whoever can inveigle them into taking a chance with a pretty bit of fluff and feathers.

Mountain trout are hailed by a legion of fisherfolk as the gamest fish in the United States, and those who have taken them from the swift streams of the Rockies are aware that, if not ranking at the very top, they are at least runners up for such honors and can make some flimsy champion look to his laurels. Thousands of these fish have been hatched in artificially cooled water at the federal fish hatcheries at Neosho, Mo., and shipped into OK-

lahoma. In this state they have been placed in such bodies of water as are adapted to their natures. This means water which does not reach a higher temperature than 56 degrees. Last year 150,000 mountain trout were distributed in such bodies of water in Eastern Oklahoma from Saline, in Mayes county, to Broken Bow, in McCurtain county. These fish were but one-inch long when placed in the water, and will not be ready for fishing until late next season.

Bass and other game fish in Oklahoma appear to be in abundance, and when the season opens May 1 streams in all parts of the state except the extreme western will be well stocked. Three million game fish—bass, crappie, perch and trout—were put in streams in Oklahoma last year by the state game and fish department.

The state game law protects all game fish during February, March and April in all bodies of water except certain privately owned lakes.

BARTLESVILLE—The annual state convention of the American Legion to be held here will probably be late in August or in September, according to an announcement of members of the committee making arrangements for the gathering.

LODGES

Ada Chapter No. 78 O. E. S. meets second and fourth Thursday nights in each month. Jewel Ray-zee, W. M.; Margaret Peay, Sec'y.

I. O. O. F.—Ada Lodge No. 146, regular meeting every Thursday. W. J. Witcher, N. G.; H. C. Evans, Sec'y.

B. P. O. E.—Ada Lodge No. 1275 meets second and fourth Monday nights in each month.—H. Claude Pitt, secretary.

A. F. & A. M.—Regular meeting of Ada Lodge No. 119, Monday night on or before the full moon in each month.—F. R. Laird, W. M.; F. C. Sims, secretary.

R. A. M.—Ada Chapter No. 26, Royal Arch Masons, meets the second Tuesday night in each month.—T. W. ROWZEE, High Priest; F. C. Sims, Secretary.

K. T. M.—Ada Commandery No. 16 Knights Templar Masons meets the third Friday night of each month.—T. W. ROWZEE, E. C.; F. C. Sims, Secretary.

KNIGHTS OF PYTHIAS—Magnolia Lodge No. 145, meets every Tuesday night. Visiting knights cordially invited.—F. L. Finley, Chancellor; Commander; J. W. Westbrook, K. R. S.

Oklahoma Is Picked
For Annual Meeting
of Engineers' Body

NORMAN, Feb. 16.—(Special).—The University of Oklahoma was designated as the place for the 1923 convention of the American Association of Collegiate Engineers due to the work of George A. Heap, Muskogee, and O. A. Pendleton, Tulsa, Oklahoma chapter delegates, to the 1922 national convention held at Rolla School of Mines, Rolla, Mo., Feb. 9, 10 and 11.

Oklahoma won the convention over two other schools, the University of Minnesota and Oklahoma Agricultural and Mechanical College. Although Oklahoma has been a member of the association since its organization in 1903 at the University of Missouri, this is the first

time Soonersland has been named for the national convention. The honor of naming the national vice-president of the association was also awarded Oklahoma which carries some significance since the present president is a senior who graduates this spring.

Ten of the largest engineering schools of the middle west are members of the association. Nine other schools made application for entrance into the association at the recent convention and are being considered, according to the Oklahoma delegates. The object of the association is to plan and hold annual engineering celebrations at the various schools in order that the layman may have a better knowledge of what is going on in that school. Oklahoma holds her celebration on St. Patrick's day every year.

DOINGS OF THE VAN LOONS—Van der Wurst isn't so certain about it after all

By F. LEFFLER

DALLAS SERVES KIDDIES LUNCH AT SMALL COST

DALLAS, Tex., Feb. 16.—Annual receipts from lunch rooms maintained at more than thirty public schools in Dallas total from \$250,000 to \$300,000, according to Superintendent J. F. Kimball. Beginning with the lunch room service initiated by the mothers' club through community effort and later taken over by the board of education, local schools are now serving lunches daily to about seventy percent of the pupils in attendance at an average cost of from 5 to 10 cents. Mr. Kimball's estimate shows.

In addition to lunch rooms operated in 31 public schools, there are two rooms maintained by the Mothers' club.

In the three high schools, each of which has from 1,500 to 1,800 pupils, the lunch rooms are in charge of a chef, who has his staff of cooks and helpers. These establishments have no connection with the domestic science departments, Mr. Kimball explained. They are handled entirely by the chef, and the volume of business is heavy, feeding on an average of 1,500 pupils a day at each high school. The boys and girls are served at different counters, and after the lunches are eaten, they return to the used dishes to the scragging tables. All high school pupils are required to eat their lunches in this room, regardless of whether they buy food there. Many pupils in all schools bring part of their lunch from home, supplementing it with food from the lunch room.

In the larger elementary schools the domestic science teacher has supervision over the lunch room.

In the small suburban schools an efficient supervisor makes the rounds attending to proper maintenance of the lunch rooms.

With regard to cost of operation the lunches are sold near actual cost, 5 percent net profit being made to be used as a sinking fund for breakage.

The supplies are all bought by the purchasing agent of the board of education in wholesale quantities.

1398 YEARS SEEN BY 235 FACULTY MEMBERS AT O.U.

NORMAN, Feb. 16.—(Special)—Thirteen hundred ninety-eight years of teaching are represented by the combined services of the 235 professors, instructors and assistants at the University of Oklahoma and its subordinate medical school at Oklahoma City. This sum takes into account the time of teaching in the state university only.

Three men on the faculty have each given over a quarter of a century of their lives to service in the school. Dr. Edwin DeBarr leads with a record of 30 years, and is now vice president of the University, director of the school of chemical engineering and professor of chemistry. Dean J. S. Buchanan is next with 27 years. Prof. J. F. Paxton follows closely with 26 years.

Dr. A. H. Van Vleet, dean of the graduate school and professor of botany, has been at the university since the Spanish-American war. Dr. J. W. Sturges, professor of Latin, has taught in the language department since the dawn of the twentieth century. Dean Roy Gittinger, professor of history, registrar and dean of undergraduates, who received his B. A. degree at the University of Oklahoma, has seen 20 years of service, but was still a pupil in school during Dr. DeBarr's ninth year as a professor in the science department.

RELIEF ADMINISTRATION TO WITHDRAW SEPT. 1

(By the Associated Press) WASHINGTON, Feb. 16.—The American Relief administration expects to withdraw from its work in the famine stricken district of Russia by next September 1, Edgar Rickard, of that organization said today after he had conferred with Secretary Hoover.

MRS. HATFIELD SABINA, OHIO

In Pitiable Condition when she Began Taking Lydia E. Pinkham's Vegetable Compound

Sabina, Ohio.—"I took Lydia E. Pinkham's Vegetable Compound for weakness and irregularity. I was weak and nervous and could hardly stand on my feet long enough to cook a meal. I was this way for about a year and had tried several medicines and had a physician, but to no avail. My sister was taking your medicine and finally induced me to try it. I now feel fine and can do my housework without any trouble at all. You can use this letter for the sake of others if you wish." Mrs. WELDON G. HATFIELD, R. R. 3, Sabina, Ohio.

Housewives make a great mistake in allowing themselves to become so weak and nervous that it is well-nigh impossible for them to attend to their necessary household duties.

Lydia E. Pinkham's Vegetable Compound should be taken when you first notice such symptoms as nervousness, backache, weakness and irregularity. It will help you and prevent more serious trouble. Give it a fair trial. It surely helped Mrs. Hatfield, just as it has many, many other women.

EAST CENTRAL TURNS UPON DURANT WINNING SECOND GAME OF CAGING SERIES HERE IN STELLAR DISPLAY

No team can play always without some luck. The Ada Teachers last night defeated Durant Teachers, taking their first victory over that school in several years. And although the locals did not win by luck, alone, their triumph savored somewhat of good fortune in the light of some of the showings made recently. The score was 16 to 10.

The game last night ended a dual series played here. Durant won the first game which was featured by its of snap last night. Hard defense of snap last night, hard defense work on both sides limited the score. Ada men had the advantage from every point except goal shooting. They seemed to have a bad eye.

At the end of the first half the score was 6 to 4 for the visitors. Thompson sent his men in the second half with renewed confidence. They soon took the lead, forcing the visitors to break up their compact defense formation. This gave Ada men the opening they wanted; they caught the visitors scattered about several times and got near enough to the goal to shoot.

Little for the home team played the best scoring game, getting 10 of Ada's 16 points. It was due to his accurate goal tossing in the last half that the home team came into its heritage. The last half was rough interspersed with fouls. A feature of the game was inability of the visitors to get a free goal; out of 11 trials they failed to make a point. Thompson's followers worked for every advantage and got 6 out of 7 trials.

At the out set of the second half Coach Bell's Durant forwards charged the Ada defense and landed a couple of field goals. After this the Ada guard formation was like a rock wall and in vain the visitors tried to break through. Their attempt at goals were effectually blocked. All the shooting they did was from a long distance. Chism and Evans proved their metal by breaking up play after play, and at the same time returning the ball to their forwards. Harrison was substituted for Waner, who was out of luck again at shooting goals.

Coach Bell used his only two subs in an attempt to save the day but they were of no value to his squad. Witt, tall center of the visitors, failed to play his usual stellar game and the Ada men did not give him a chance. Newton and Waner, backed by Little, formed the offense formation that won the game. When Harrison went in for Waner the team work was even better.

Line-up summary:

Ada (16) Pos. Durant (10)
Newton F. Tyree
Waner (C) F. Hayes
Little C. Witt
Chism G. Craig (C)
Evans G. Currin
Substitutions: Durant, Gladney for Tyree, Beaty for Craig, Ada, Harrison for Waner.

Field Goals: Little 4, Witt 3, Newton 1, Tyree 1, Hayes 1. Free Goals: Little 2 out of 3 trials, Harrison 2 out of 2 trials, Waner 2 out of 2 trials. Witt missed six trials, Hayes missed three trials and Tyree missed two trials at free goals. Personal fouls, Durant 7, Ada 11. Technical fouls, Durant 1, Ada 3. Walter Wray referee.

FRANCE TO KEEP WINE WEEK FROM MARCH 13 TO 19

PARIS, Feb. 16.—A National Week for Wine in the title which has been given to a convention of representatives of wine-growers and sales-agents that will sit in Paris under the presidency of Former Minister of Agriculture, J. H. Ricard, from March 13 to 19.

The closing of the United States markets has caused a tremendous injury to the wine trade in France. The fact that the Scandinavian states have also gone dry or on rations of intoxicants and South American vineyards are daily becoming larger and more productive thus restricting imports to the lowest ebb in years, has awakened the French wine-growers to their danger.

Wine stocks have accumulated although there has been no decrease in the price of wine to the trade of consumer.

One of the most important articles on the agenda of the convention is the following: "Investigate and report on the sale of wine in the United States; how public opinion in the United States is disposed toward the present dry regime; is there any reason to suppose that some modification will be adopted allowing wines to enter. What are the frauds in existence by which the present law is being evaded."

Another article reads: "Establishing closer relations between American wine buyers and French wine selling agents in order to insure the authenticity of French wine and avoid falsification. Collaborate in attempt revert to former international agreements and internal legislation in the United States."

An old apple tree, the oldest on the Pacific Coast, is located in Vancouver, Washington. When but a seedling it was brought to the mouth of the Columbia river by employees of the Old Hudson Bay Company, 100 years ago next March.

BANK OF ENGLAND CUTS RATE ON ITS DISCOUNT

(By the Associated Press) LONDON, Feb. 16.—The Bank of England today reduced its rate of discount to 4 1/2 percent.

The discount rate of the Bank of England has been 5 percent since November 3, last, when it was reduced from 5 1/2 percent rate established on the preceding July 1.

The action was forecast in London last night in which it was pointed out that the treasury had suspended temporarily its issuance of 5 percent treasury bonds.

The highest rate was reached in August, 1914, after the outbreak of the war when it was set at 10 percent.
